New Jersey offers the excitement of sailing, fishing, clamming, crabbing, and many types of boating, including shows and races.

Yacht club facilities, marinas, charter and party boat rentals for the sportsman, are among the many activities available.

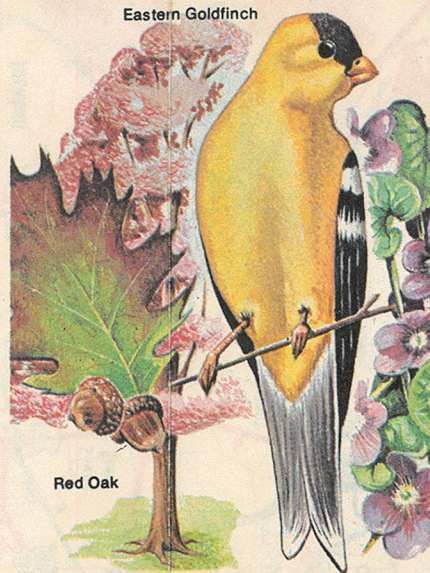

The excitement of the surf, boardwalk games, piers, amusements, the beauty of the beaches, and the miles of boardwalks are attractions for many summer vacationers.

Beauty pageants, parades, exhibits, fireworks, tennis, golf, horseback riding, summer concerts, arts and crafts exhibits are only a few of the many possible activities.

New Jersey offers some of the best beach break waves for surfing on the east coast. Board rentals are available for the beginners, and surfing is popular both summer and winter.

NEW JERSEY PUBLIC HUNTING AND FISHING GROUNDS AND STATE FORESTS

Off the New Jersey coast, the fishing's superb for giant marlin, tuna and swordfish. Nearer shore, there are porgy, seabass and tautog. And for surf casters, striped bass, and fighting snapper blues. There are tournaments and contests, too, through most of the fishing season at Atlantic City, Asbury Park, Belmar, Lavallette, Tuckerton and other beach resort cities.

STATE COMPLEX. TRENTON

New Jersey has a variety of places for a great vacation, a business convention, or just a quiet weekend. Our lakes, forests and beaches offer opportunities for fun and relaxation, not only in summer but all year long.

Ski slopes, historic sites, casinos, restaurants, theater, race tracks, and major league sports are attractions that make any season the time to explore New Jersey. Whether you live here or plan to visit, an extensive complex of roads and highways crisscross the State enabling easy access to these areas.

For a time of enjoyment, take the train, a bus, or your car to see the wide range of natural and man-made fun spots of New Jersey.

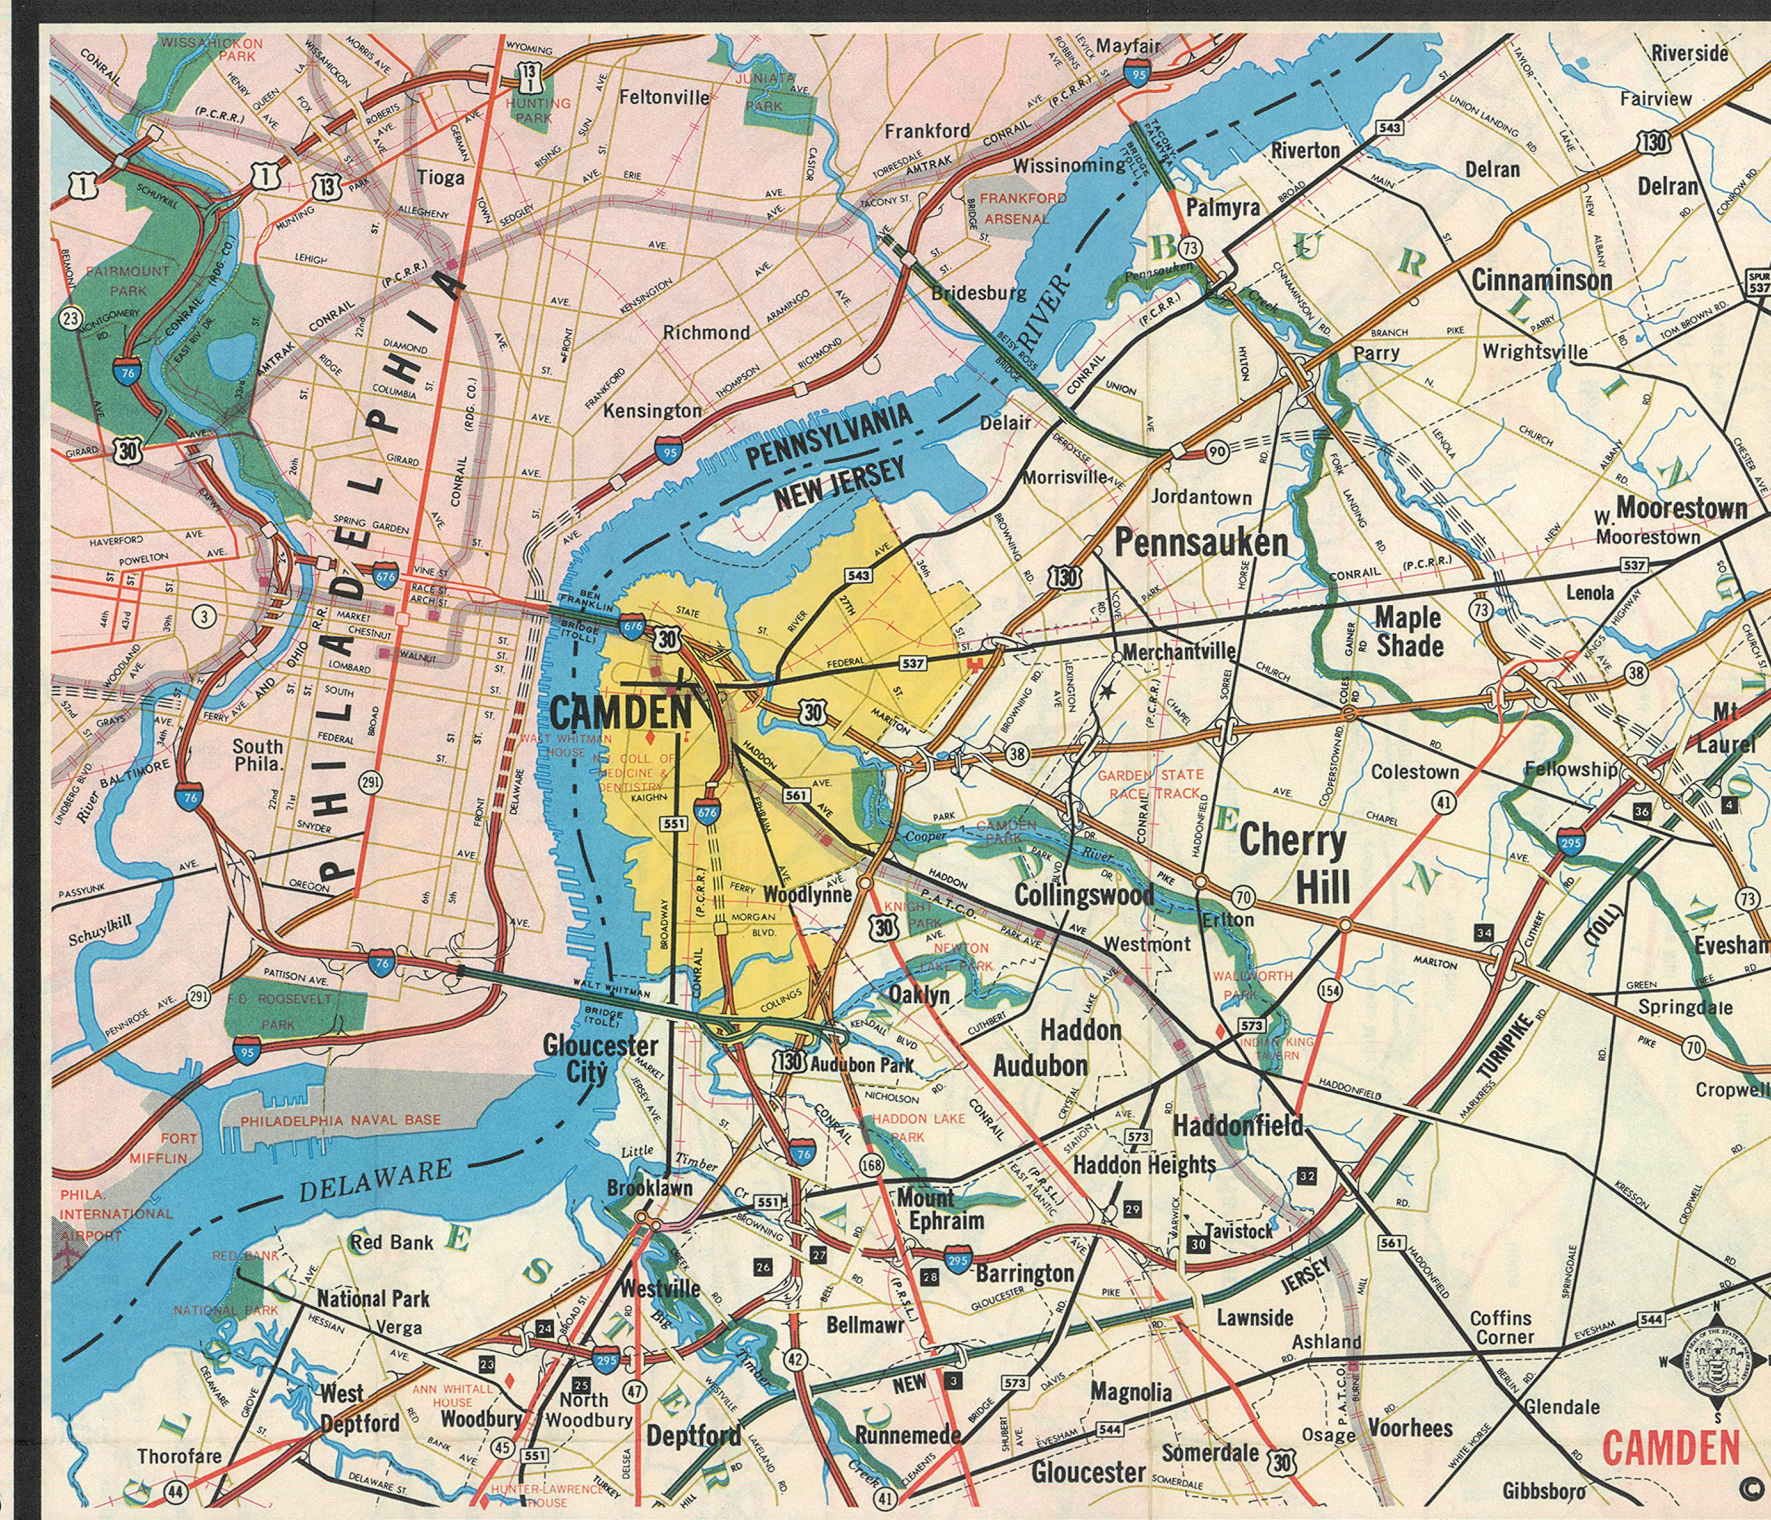

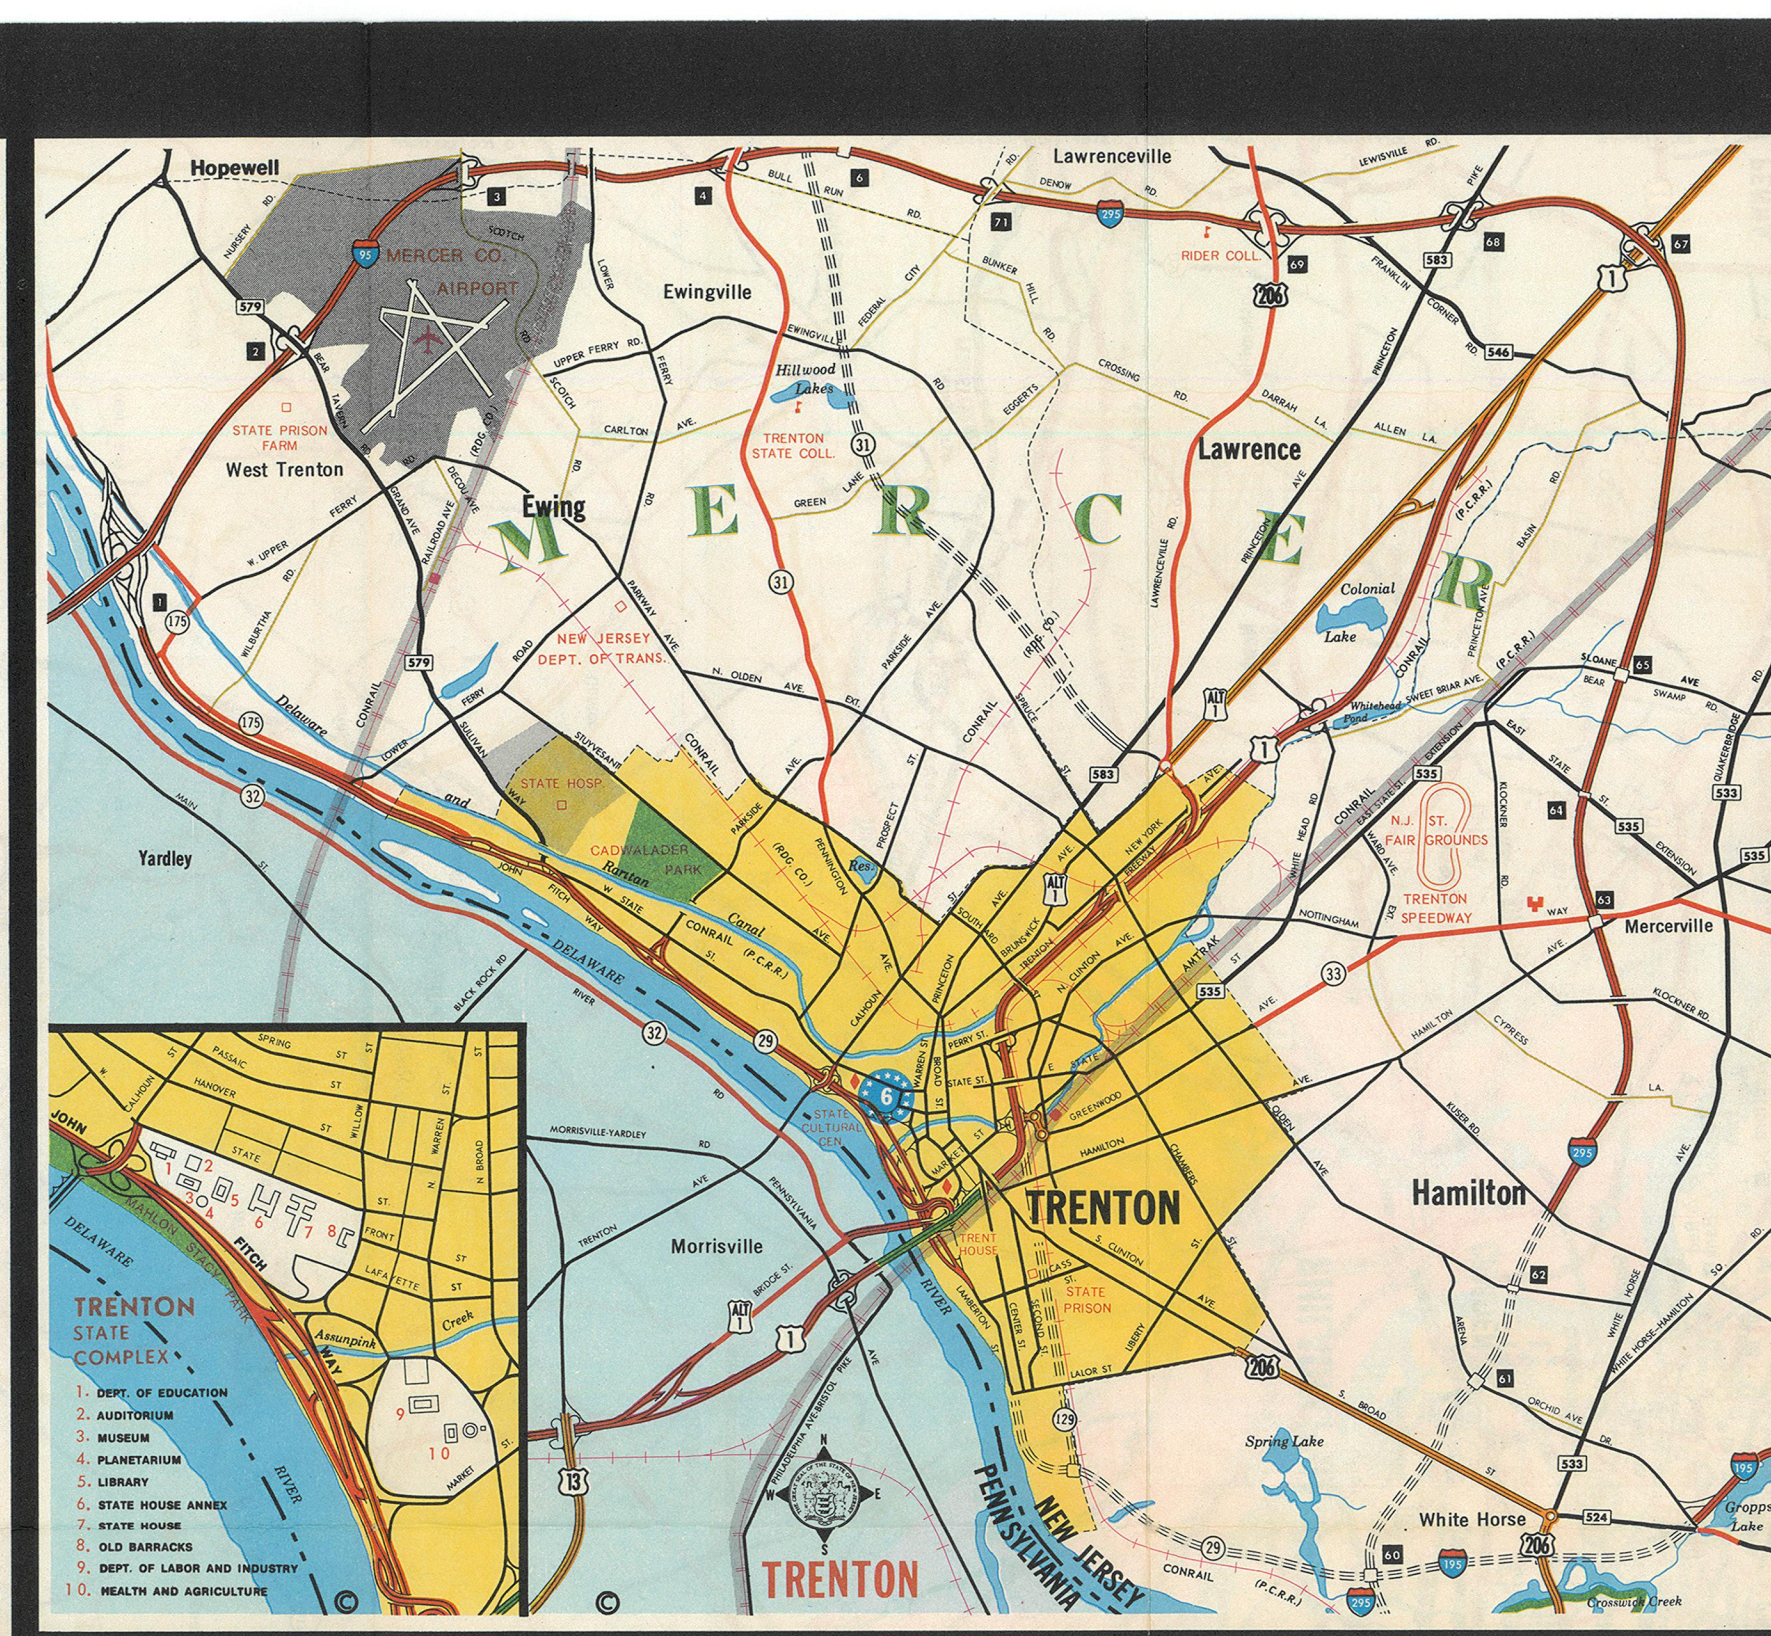

BRENDAN BYRNE GOVERNOR

Transportation plays a vital role in the economic and cultural life of New Jersey. We see this daily, whether we travel by road, rail, ship or air; whether we travel to work, on business or for relaxation; whether the transportation is for people or products.

This 1978 edition of New Jersey's Official Map and Guide is intended to assist residents and visitors alike in their travels around the State as we move through a critical period in planning and improving transportation. Future priorities must be reassessed in the light of constraints in the use of energy, concern for the environment and limitations in the capacity of the transportation network itself. These are the challenges of change, and with the understanding and help of the citizens of New Jersey, we will meet them confidently and successfully.

COMMISSIONER, DEPARTMENT OF TRANSPORTATION
